

Search Engine Optimization

Tired of receiving the same old emails promising you a #1 position in Google or MSN.com?

Generate more traffic to your web site through the search engines with the proven strategies Grant Communications has been providing... since 1995 !

A relatively new technique is the cross-linking of a number of domains that are all relevant to your company. We will register multiple domain names that are relevant to your key phrases, mirror your existing web site under those names and submit them on all the major Search Engines.

For example, BobsShoeStore.com can go under the name ShoeStoreBoston.com or LeatherShoes.com ... The cost to host each domain name is \$10.00 per month, while web addresses cost \$14.95 per year. This is a discounted offer through our web hosting partner, LowellArea.com/hosting/. (Note: a minimum of 10 sites optimized is highly recommended to improve results).

Other SEO Services:

Baseline:

- Home Page Optimized, Submitted, Reports Setup
- Per Key Phrase; Home Page setup, Meta Tags
- 6 week/12 week Benchmark Ranking Reports
